General: Spreader 90 is a low-foaming, non-ionic spreader adjuvant. Spreader 90 provides quick wetting, more uniform distribution and increases retention of spray by reducing surface tension. Spreader 90 is formulated alcohol free and non-flammable. Spreader 90 is readily dispersible in water and compatible with fertilizer and pesticide mixtures.

Directions for Use: Fill spray tank 1/2 full with water and begin agitation. Add pesticides, as directed by label, while maintaining agitation. After pesticides are thoroughly mixed, add selected rate of Spreader 90 as suggested by the label of pesticide being used.

	<u>Fluid oz / 100 gal</u>
