March 06, 2022

Dear Local Authority:

RE: Liquor License Renewal Applications in Your Jurisdiction - Your Objection Opportunity

Enclosed please find a list of liquor-licensed premises in your jurisdiction whose liquor licenses will expire in about 90 days. This is your opportunity to object to these license renewal requests as authorized by RCW 66.24.010 (8).

1) Objection to License Renewal

To object to a liquor license renewal: fax or mail a letter to the Washington State Liquor and Cannabis Board (WS-LCB) Licensing Division. This letter must:

- o Detail the reason(s) for your objection, including a statement of all the facts upon which your objection or objections are based. You may include attachments and supporting documents which contain or confirm the facts upon which your objections are based.
- o Please note that whether a hearing will be granted or not is within the Board's discretion per RCW 66.24.010 (8)(d).

Your letter or fax of objection must be received by the Board's Licensing Division at least 30 days prior to the license expiration date. If you need additional time you must request that in writing. Please be aware, however, that it is within the Board's discretion to grant or deny any requests for extension of time to submit objections. Your request for extension will be granted or denied in writing. If objections are not timely received, they will not be considered as part of the renewal process.

A copy of your objection and any attachments and supporting materials will be made available to the licensee, therefore, it is the Local Authority's responsibility to redact any confidential or non-disclosable information (see ACW 42.56) prior to submission to the WSLCB.

2) Status of License While Objection Pending

During the time an objection to a renewal is pending, the permanent liquor license is placed on hold. However, temporary licenses are regularly issued to the licensee until a final decision is made by the Board.

3) Procedure Following Licensing Division Receipt of Objection

After we receive your objection, our licensing staff will prepare a report for review by the Licensing Director. The report will include your letter of objection, as well as any attachments and supporting documents you send. The Licensing Director will then decide to renew the liquor license, or to proceed with non-renewal.

4) Procedure if Board Does Not Renew License

If the Board decides not to renew a license, we will notify the licensee in writing, stating the reason for this decision. The licensee also has the right to request a hearing to contest non-renewal of their liquor license. RCW 66.24.010 (8)(d). If the licensee makes a timely request for a hearing, we will notify you.

The Board's Licensing Division will be required to present evidence at the hearing before an administrative law judge to support the non-renewal recommendation. You may present evidence in support of your objection or objections. The administrative law judge will consider all of the evidence and issue an initial order for the Board's review. The Board members have final authority to renew the liquor license and will enter a final order announcing their decision.

5) Procedure if Board Renews License Over Your Objection

If the Board decides to renew the license over your objection, you will be notified in writing. At that time, you may be given an opportunity to request a hearing. An opportunity for a hearing is offered at the Board's discretion. If a hearing is held, you will be responsible for presenting evidence before an Administrative Law Judge in support of your objection to license renewal. The Board's Licensing Division will present evidence in support of license renewal. The licensee may also participate and present evidence if the licensee desires. The administrative law judge will consider all of the evidence, and issue an initial order for the Board's review. The Board members have final authority to renew the liquor license and will enter a final order announcing their decision.

For questions about this process, contact the WSLCB Licensing Division at (360) 664-1600 or email us at ws1cb@liq.wa.gov.

Sincerely,

Rebecca Smith

ECF – “Electronic Case Files” or “ECF” system refers to a standard for content, format and messaging services used by the Clerks/courts’ automated system to receive and store documents filed in electronic form.

2. Executive Summary

Customer has requested the following SOW for ImageSoft to implement a TrueFiling ECF-conformant electronic filing solution. This SOW has been created leveraging the existing Spokane County TrueFiling structure.

The TrueFiling solution will allow Customer’s filers to submit Clerk filings (new and subsequent filings) through an online, hosted web interface (EFSP). Customer Clerks will use the Filing Review workflow to process these electronic filings (EFM).

The purpose of this SOW is for ImageSoft to assist Customer in implementing eFiling services within the constraints of the Master Agreement. ImageSoft’s eFiling system is called TrueFiling™.

This SOW provides scope information for installing, configuring, testing, training, and hosting of the standard TrueFiling EFSP and Filing Review EFM systems. No customization of product is included. Any significant product or implementation changes will be managed through the *Project Change Authorization Procedure* described in Appendix A-1. If a change in scope occurs, ImageSoft will present to Customer the reasoning for the additional or reduced scope and an estimate of the changed effort. Customer will be given the option to accept the scope change, through a change order, or where feasible, to continue the project at the original scope.

The following are incorporated in and made part of this SOW:

- Appendix A: Project Procedures
- Appendix B: Case Types/Filing Types

3. Proposed Solution

This section provides details about the standard product offering and indicates the anticipated scope of the product.

3.1 Product Overview

ImageSoft's eFiling solution consists of two (2) main components: TrueFiling and OnBase Filing Review. TrueFiling is a web application that allows attorneys, organizations, and pro-se litigants to quickly and easily file documents to the Clerk. OnBase provides the Filing Review interface specifically for Clerks and Judges to review and markup new filings. All TrueFiling documents are generally converted and submitted to the Clerk as PDF, but Customer will receive in a .tif format

3.2 Case Initiation

TrueFiling supports case initiation of cases. Filers will login to the TrueFiling portal and fill out a basic form that indicates the case type and basic party information. From there, the filer will be able to upload additional documents and submit to the Clerk.

TrueFiling will be configured with a standard set of Case Types and Filing Types and the customer will be able to specify any applicable fees (statutory, convenience). See Appendix B: Case Types/Filing Types for a list of the case types and filing types included within this solution.

3.3 Subsequent Filings

TrueFiling supports subsequent filing of cases. The filer can search by either case number or a wildcard search of case title, and proceed to upload one or more documents. The filer can also select recipients for electronic servicing. Upon submitting the filings, recipients marked for eService will be served via email with download links to the documents. TrueFiling automatically generates a Proof of Service and submits this to OnBase with the rest of the filings that were served. The Proof of Service lists out all recipients where delivery was at least attempted. TrueFiling will be configured with a standard set of Case Types and Filing Types and the customer will be able to specify any applicable fees (statutory, convenience).

3.4 Payment Processing

TrueFiling uses Burton for its payment processing and supports all major credit cards. The filer is charged immediately upon submitting the filings (note rejected filing fees will be credited but the customer still pays the 3% credit card processing fee and disputed charges would also still result in the customer paying the 3% credit card processing fee). In respect to statutory fees, TrueFiling will support the configuration of up to five (5) Fee Waiver reasons with the ability to upload a Fee Waiver form provided by Customer. If a Fee Waiver is submitted, the statutory fees are waived for that filer. A Payment Receipt is generated and sent to OnBase to accompany the filings. In addition to any statutory fees Customer wishes to charge, ImageSoft charges and collects the following fees:

- 3% credit card processing fee
- \$3 eServicing fee per filing that is eServed (optional)

Statutory fees will be disbursed to the court the following business day and the court will be able to review funds distribution via the Burton Payment Processor web portal. Convenience fees will be collected by ImageSoft and applied to Customer's annual subscription fees. Any remaining balance will be billed to Customer during the annual billing period.

NOTE: Attorney pre-pay escrow accounts are not part of the standard product but are available as an add-on for cost.

3.5 Filing Review

OnBase provides a Filing Review interface for documents that have been submitted via TrueFiling. The interface supports queues for Clerks and Judges. Work can be distributed to specific Clerks based on the type of filing, and a list of Clerk holidays can be specified by Customer to be configured in the final solution. While processing filings, the Clerk will be able to accept or reject those filings. Customer will be able to specify a list of rejection reasons the Clerk can choose from.

Customer will provide a Filed stamp and Clerk Seal that can be applied to documents throughout the filing review process.

3.6 Integrations

A daily feed of documents will be exported for each court and placed on an ImageSoft provided sFTP. These documents will be indexed by case number and docket code. Customer will be responsible for the extraction of documents from the designated sFTP location and ingestion into the court's own DMS for long term storage.

Customer will be responsible for providing an initial and ongoing (frequency TBD) case load which will be uploaded to the TrueFiling environment and will allow filers to search and file into open cases. Customer will provide a sample of the case data load to be validated during their User Acceptance Testing ("UAT"). If able, Customer will provide a full case data load of all open cases to be uploaded to Production at the time of Go-Live. Case data format will be determined by ImageSoft, and at a minimum will include the case number, case title, and case created date.

3.7 Retention

Both TrueFiling and OnBase support a retention period and are not the permanent storage for the case file. OnBase will purge documents after ninety (90) days, and TrueFiling will purge documents after ninety (90) days.

3.8 Hosting

ImageSoft will provide the OnBase solution in a SaaS hosting model through ImageSoft Cloud Services. ImageSoft will host the Customer solution Production environment in Microsoft Azure Government Cloud. Azure Government delivers a dedicated cloud, enabling government agencies and their partners to transform mission-critical workloads to the cloud. Azure Government services handle data that is subject to certain government regulations and requirements, such as FedRAMP, NIST 800.171 (DIB), ITAR, IRS 1075, DoD L4, and CJIS. To provide you with the highest level of security and compliance, Azure Government uses physically isolated datacenters and networks (located in U.S. only).

By leveraging Microsoft Azure Government for production systems, ImageSoft delivers enterprise security starting at the foundational physical layer, offering a holistic security management approach through the logical and application layers with options to match the strictest control. This includes access controls, data encryption at rest as well as in-flight, and data isolation. Microsoft leads the industry in establishing clear security and privacy requirements and then consistently meeting these requirements.

ImageSoft will host:

- One (1) Test environment. The Test environment will be secured in the same manner as Production with the exception that the Test environment leverages the Azure Commercial Cloud as opposed to Azure Government.

- One (1) Production environment.

ImageSoft will configure or verify the following:

- Use of Transport Layer Security ("TLS") for all communications to the Application Server and/or Web Server.
- Use of best-in-class encryption to ensure security of Data-at-Rest.

ImageSoft SaaS Cloud Services Assumptions

- Solution includes ImageSoft's Standard Class for Availability and Business Continuity for Production systems:
 - Monthly Uptime Percentage of 99% - excludes the following: planned downtime (of which ImageSoft shall give advance electronic notice); any unavailability caused by circumstances beyond ImageSoft's reasonable control, including, for example, an act of God, act of government, flood, fire, earthquake, civil unrest, act of terror, strike or other labor problem (other than one involving ImageSoft employees), internet or third party Cloud service provider failure or delay, non-ImageSoft Application, or denial of service attack.
 - Recovery Point Objective – eight (8) hours
 - Recovery Time Objective – forty-eight (48) consecutive hours
- ImageSoft will provide up to two (2) environments including:
 - One (1) Production environment- Azure Government
 - One (1) Non-Prod Functionality Testing environment- Azure Commercial. This is the Test environment
- There is no SLA for non-production environments. ImageSoft will make reasonable efforts to make the non-production system available during normal business hours (Monday to Friday, 8am to 6pmPST, excluding holidays).
- **System Availability:**
 - **TrueFiling** – Filers will be able to file into TrueFiling 24x7 within the described SLA terms.
 - **OnBase / Filing Review** – Clerks will be able to access OnBase Filing Review 24x7, with ImageSoft support available Monday through Friday, 8am to 6 pm PST, within the described SLA terms.
- ImageSoft will initially configure the Production and Non-Production systems in the same configuration.
- Customer and ImageSoft will coordinate firewall and desktop security changes necessary to accommodate the OnBase Solution hosted in Azure Government. This includes, but is not limited to, whitelisting Azure Government IP addresses, the OnBase Unity Client, the Azure VPN software and other solution components in firewalls, web traffic filtering software, intrusion detection software, etc.
- Customer administrators will make necessary changes to their Active Directory infrastructure to accommodate ADFS integration if required.
- Customer will ensure has adequate bandwidth to support reasonable data transfer rates between the source network and Azure Government. Customer understands that document download speeds are determined by multiple factors, including document size, available bandwidth, network saturation, workstation specifications, etc.
- The maximum supported file size is 25MB. Support for larger file sizes may require additional customizations that are out of scope.
- TrueFiling operates off a continuous delivery release model, typically releasing every few weeks rather than one (1) or two (2) large releases a year.

3.9 Project Implementation Construction and Build Factors

The following factors will impact the schedule for implementing TrueFiling for Clerk:

1. Clerk's technical readiness: IT infrastructure and connection to the internet.
2. Clerk/court's change readiness: acceptance of change and acceptance of technology.

3.10 Clerk/Court Tasks and Resources

ImageSoft requires participation by Clerk. Along with the chart below, ImageSoft expects the Clerk or county IT to provide a Project Manager who can attend status meetings, coordinate resources and customer activities or deliverables, build consensus, provide consolidated feedback and make decisions on behalf of the Customer stakeholders. Additional responsibilities of the Project Manager are detailed in section 3.12 – Clerk Project Responsibilities.

The following chart provides an estimate of the Clerk's required participation and/or activities for each phase to support a successful implementation:

Task Name	Role	Commitment / Work Products
Project Kickoff	IT, Clerk, Court Admin, Judge	Day meeting
Review Standard Solution and Configuration with Court	IT, Clerk, Court Admin	Technical review meetings, documentation reviews, demonstrations, requirements meetings

The Clerk resources will be assigned their specific tasks and work products in the agreed-to project schedule. Both the ImageSoft and Clerk Project Managers will monitor and control the project work. Each task and work product (deliverable) will be assigned a time to complete.

3.11 Implementation Stages

The following sections describe the activities the Clerk can anticipate to participate in throughout the implementation:

Project Kickoff

The objective of this activity is to align the ImageSoft and Customer teams, ensure all parties understand the intended implementation approach and scope of the product sold. A kickoff meeting will be held during this period and a project plan will be created by ImageSoft and mutually reviewed and approved.

Case Type and Filing Type Requirements

The objective of this activity is to identify the required configuration of the standard solution for all case types and filing types. The Clerk will be responsible for completing a Configuration Workbook and returning it to ImageSoft within one (1) week of Project Kickoff.

Product Installation

The objective of this activity is to set up ImageSoft's development environment for the Clerk and get TrueFiling and Filing Review configured from a base solution standpoint based on the standard product offering for a single case type. ImageSoft will set up the development servers for OnBase, create a development instance of TrueFiling, and get all communication flowing between them so the system is ready for demonstration to the Clerk and configuration review.

NOTE: The Development environment will be the Clerk's live production system once the system is ready for filers. Following the Go-Live, the Production environment will be cloned to create a long-term Development environment.

Configuration Review

The objective of this activity is to review the baseline configuration of the standard solution. Clerk's business and IT Subject Matter Experts will participate in a solution demonstration and configuration review session to understand the major functionality of the baseline system and the processing of the Case Types and Filing Types.

System Testing

The objective of this activity is to test the system and ensure it is working as designed in accordance to the base solution and requested configuration changes.

This activity consists of the following subtasks:

- Conduct system testing
- Fix identified problems
- Retest as required

Training

ImageSoft will provide training for both the filers and Clerk staff. The following sections describe the included training:

Refresher training will be made available to an additional group of users as part of the full roll out.

ImageSoft will host one (1), one-hour TrueFiling webinar on the following schedule for the filers to choose from:

- One (1) week prior to Go Live

The training will provide a demonstration of the TrueFiling website. Attorneys will have the opportunity to ask questions over the chat feature of the provided webinar software.

This activity consists of the following subtasks:

- Work with Clerk to send an invitation email to a list of attorneys that would use the TrueFiling system.
- Schedule and conduct one (1) Filing Review Training session.

User Acceptance Testing

The purpose of User Acceptance Testing ("UAT") is for the Clerk to test the solution to ensure the configuration changes requested have been successfully implemented. The UAT process is a cooperative effort facilitated by ImageSoft.

UAT requires heavy involvement from both the ImageSoft and Clerk teams; preparation for the UAT process starts early on in the project and culminates with the testing period. The duration of the testing period for this SOW is approximately two (2) weeks. A Project Change Request will be required for additional UAT duration.

ImageSoft will perform the following tasks as part of the UAT process:

Clerk will perform the following tasks as part of the UAT process:

- Provide at least one (1) resource to perform a minimum of twenty (20) hours per week of testing during the testing period. Report results and issues to ImageSoft.
- Identify a single point of contact for internal testers to report defects.
- Identify a single point of contact to report defects and communicate with ImageSoft.
- Participate in daily UAT status meetings.
- Clerk's System Administration shall enter defects into the ImageSoft-provided Issue Tracking system. Details to be entered include a minimum of:
 - Detailed description of the problem (include screenshot(s) if applicable)
 - Steps needed to reproduce the issue
 - Troubleshooting steps which have already been taken to solve the issue
- Perform regular retest of ImageSoft resolved defects (at least every other day) and communicate resolutions to end users.
- Work with ImageSoft to prioritize issues that arise during UAT.

Go-Live

ImageSoft will assist Clerk in the rollout of the final system into Production. Production rollout is a joint effort, and will require significant effort from Clerk.

This activity consists of the following subtasks:

- Create Production cutover plan and communicate plan and status with Clerk.
- Coordinate with Clerk on Production cutover schedule and activities, including any required system outages.
- Promote configuration to Production (single environment only).
- Perform smoke test of Production system after promotion.

Post Go-Live Support

The purpose of this activity is to provide transition of the system from the implementation team into long term support for the newly implemented solution. The duration of the support period for this SOW is approximately two (2) weeks. A Project Change Request ("PCR") will be required for additional Post Go-Live Support duration. All work will be conducted remotely.

This activity consists of the following subtasks:

- Correct defects which Clerk demonstrates are behaving contrary to the Clerk Configuration Workbook.
 - All reported issues will be reviewed and discussed if requested functionality is not within the scope of the standard solution; project team will estimate any requested enhancements which identified.
- Perform ImageSoft internal transition readiness assessment (and create documentation as necessary).

ImageSoft will provide a comprehensive Maintenance and Support program for the system after it goes into live production as required by the provisions of the Master Agreement. As part of such services, ImageSoft will transition from implementation mode to production support mode. This transition includes internal ImageSoft meetings and knowledge transfer and notification of updated contact procedures to Clerk users through the Clerk Project Manager.

Ongoing support is available for filers through our TrueFiling Support team and available for Clerks and court personnel through our Cloud Services Support team. Support hours for filers and Clerk staff are weekdays from 5:00 AM – 6:00 PM PST.

3.18 Project Assumptions

The following assumptions were made by ImageSoft while preparing this SOW for Customer. A significant change in any of the below assumptions may directly affect the work, schedule, and cost of this project.

- This is managed hosting – ImageSoft will act as the System Administrator. Courts / County IT will not have access to the backend servers, configuration, or OnBase Studio.
- Courts have not purchased 24x7 support. This means ImageSoft will be available from 5:00 AM – 6:00 PM PST for Courts and from 5:00 AM – 6:00 PM PST for Filers.
- All counties will be in a single shared instance of OnBase, hosted in the ImageSoft Cloud.
- All counties will have the same functionality and features.
- All counties will progress simultaneously through the project. There will be a single configuration migration. While it is acceptable for counties to announce this to filers at their own pace, all technical migration must be promoted simultaneously.
- All courts are Superior Courts.

- A daily feed of documents will be provided to each court via an ImageSoft sFTP. Courts will need to process ingestion into the court's own DMS for long term storage.
 - This folder will be purged every seven (7) days.
- All eight (8) case types are included in the WA Counties solution:
 - S1 – Criminal, S2 – Civil, S3 – Domestic, S4 – Probate/Guardianship, S5 – Adoption/Parentage, S6 – Mental Illness/Alcohol, S7 – Juvenile Dependency, and S8 – Juvenile Offender*
- Two (2) environments are included in pricing – Test and Production
- All counties/courts handle taxes and statutory fees in the same manner. If there is deviation, there may be impact to cost.
- All courts have the same case types and filing types and associated fees.
- Filing fees are per filing.
- Each court will receive a daily ACH report and daily deposit for filings which have paid fees.
- If the courts elect to use the eService feature, there is a charge of \$3/filing that is eServed.
- An e-filing Go-Live date has not been determined or agreed to, a mutually agreeable Go-Live date will be determined once the project has officially kicked off.
 - A project plan will be created upon start of the project, and all parties are expected to do their best to work within the agreed to timelines. If significant delays occur to the schedule due to inactivity on the part of one or more courts, additional fees may be considered to split the project out into multiple migrations.
- The courts will agree upon a single stakeholder for final decisions between the four (4) courts (The four (4) courts will need to decide as one (1) single voice). This person will act as a coordinator across all counties as well when shared trainings and/or discovery sessions need to be scheduled.
- System setup and configuration data, such as case types and filing types, will be provided in an ImageSoft specified format.
- ImageSoft will provide the case feed format that all courts will adhere to for the historical case load and incremental updates.
- Each county must limit its customer project team members to three to four (3-4) representatives max per court for meetings, trainings, etc.
- Case feed development will be the same – flat file with SFTP (ISI hosted), not web service.
- ImageSoft will provide standard user documentation only. This documentation will be product focused and will not be a work-manual for the Clerks or Judges.
- Filer training will be offered via webinars one (1) week ahead of Go-Live, the week of Go-Live, and one (1) week after Go-Live.
- All Customer project members need to watch intro training videos on TruFiling & Filing Review before discovery sessions.
- Courts are responsible for promoting the use of eFiling to their user and filer base.
- Records will be retained for ninety (90) days, after which period ImageSoft has the rights to purge records from the system.
- Pricing is based upon the assumption that all courts will happen simultaneously. Any change in the number of participating courts, or the ability for all courts to work on this project at the same time will require a review of the pricing.
- Administrating the hosted OnBase Filing Review does not make ImageSoft responsible for any court which may have OnBase on-premise. Issues / support for the on-premise system will need to be worked through with your partner/reseller.
- Deliverable Materials will be accepted or written feedback delivered within five (5) business days of receipt. If ImageSoft receives no response from the Customer Project Manager within five (5) business days, then the deliverable Material will be deemed accepted. Revisions not agreed to by ImageSoft or Customer will be managed in accordance with Project Change Authorization Procedure and/or Escalation procedure.

Appendix A: Project Procedures

A-1: Project Change Authorization Procedure

A Project Change Request ("PCR") will be the vehicle for communicating change and will describe the change and the effect the change will have on the project.

The following process will be followed if a change to this SOW is required:

- A change is proposed by either party's Project Manager and discussed.
- The Project Team will investigate scope, schedule, and cost impacts of the proposed change.
- A PCR will be created by ImageSoft Project Manager and submitted for internal review and approval.
- The Account Executive and/or ImageSoft Project Manager will submit the PCR to the Customer Project Manager for review.
- A PCR must be signed by authorized representatives from both parties to authorize investigation of the recommended changes. ImageSoft will invoice Customer for any such charges when incurred as per the PCR deliverables.
- Until a change is agreed in writing, both parties will continue to act in accordance with the latest agreed version of the SOW.

A-2: Escalation Procedure

The following procedure will be followed if resolution is required to a conflict arising during the performance of this SOW.

- When a conflict arises between Customer and ImageSoft, the project team member(s) will first strive to work out the problem internally.
- Level 1: If the project team cannot resolve the conflict within a reasonable timeframe, the Customer Project Manager and ImageSoft Project Manager will meet to resolve the issue.
- Level 2: If the conflict is not resolved within three (3) working days after being escalated to Level 1, the Customer Project Lead will meet with the ImageSoft Team Lead to resolve the issue.
- Level 3: If the conflict is not resolved after being escalated to Level 2, the Customer Project Sponsor and ImageSoft Executive Sponsor will meet to resolve the issue.
- If the conflict remains unresolved after Level 3 intervention, either party may terminate this SOW. If the conflict is addressed by termination, Customer agrees to pay ImageSoft for the following:
 - All Services ImageSoft provides and any Products and Materials ImageSoft delivers through termination;
 - All expenses ImageSoft incurs through termination; and
 - Any charges ImageSoft incurs in terminating the Services.
- During any conflict resolution, ImageSoft agrees to provide Services relating to items not in dispute, to the extent practicable pending resolution of the conflict. Customer agrees to pay invoices per the Agreement.

MEMORANDUM

TO: Board of County Commissioners
FROM: Alan Peters, AICP, Community Development Director
DATE: March 16, 2022
RE: Proposed amendments to the Carson Subarea Comprehensive Plan and Zoning Map for properties on the south side of Smith-Beckon Road, between Wind River Road and Metzger Road in Carson, WA.

Background

511 Metzger Road is a 2.59-acre parcel located on the southwest corner of Smith-Beckon Road and Metzger Road in Carson. Though the property has historically been used for commercial uses, it was designated Rural Residential when the Carson zoning was adopted in November 1995. The property owner has proposed to expand the commercial use of this property by operating a drive-thru espresso stand on the north side of the property adjacent to Smith-Beckon Road. Existing regulations do not allow for operation of an espresso stand on this property as expansion of commercial uses on the property does not comply with the Rural Residential zoning or the county's nonconforming use standards.

The Planning Commission discussed this situation at the February 15, 2022, meeting and directed staff to schedule a public hearing to consider rezoning of the subject property to Commercial. The Planning Commission also suggested the possibility of expanding this commercial rezoning westward to Wind River Road. Making this change would also require amendment of the Carson comprehensive plan map from Residential to Commercial.

Planning Commission Recommendation

The Planning Commission held a public hearing on March 15, 2022, and voted to recommend that the Board of County Commissioners rezone three properties on the south side of Smith-Beckon Road, between Wind River Road and Metzger Road, from Rural Residential to Commercial. The Planning Commission also recommended that the corresponding Comprehensive Plan land use designations change from Rural Residential to Business Center/Commercial for these three properties. The following three properties are part of this proposal:

1. 511 Metzger Road, owned by Kurtis Krall, consisting of 2.59 acres
2. 1492 Wind River Road, owned by Skamania PUD, consisting of three parcels totaling 7.78 acres
3. 1201 Smith Beckon Road, owned by Lorance and Joann Thayer, consisting of 1.82 acres.

The Krall and Skamania PUD properties both consist of commercial or public facility uses, however the Thayer property is a residential property. The Planning Commission further recommended that the Board should either rezone all three properties or just the Krall property. Staff feels that either option would be appropriate.

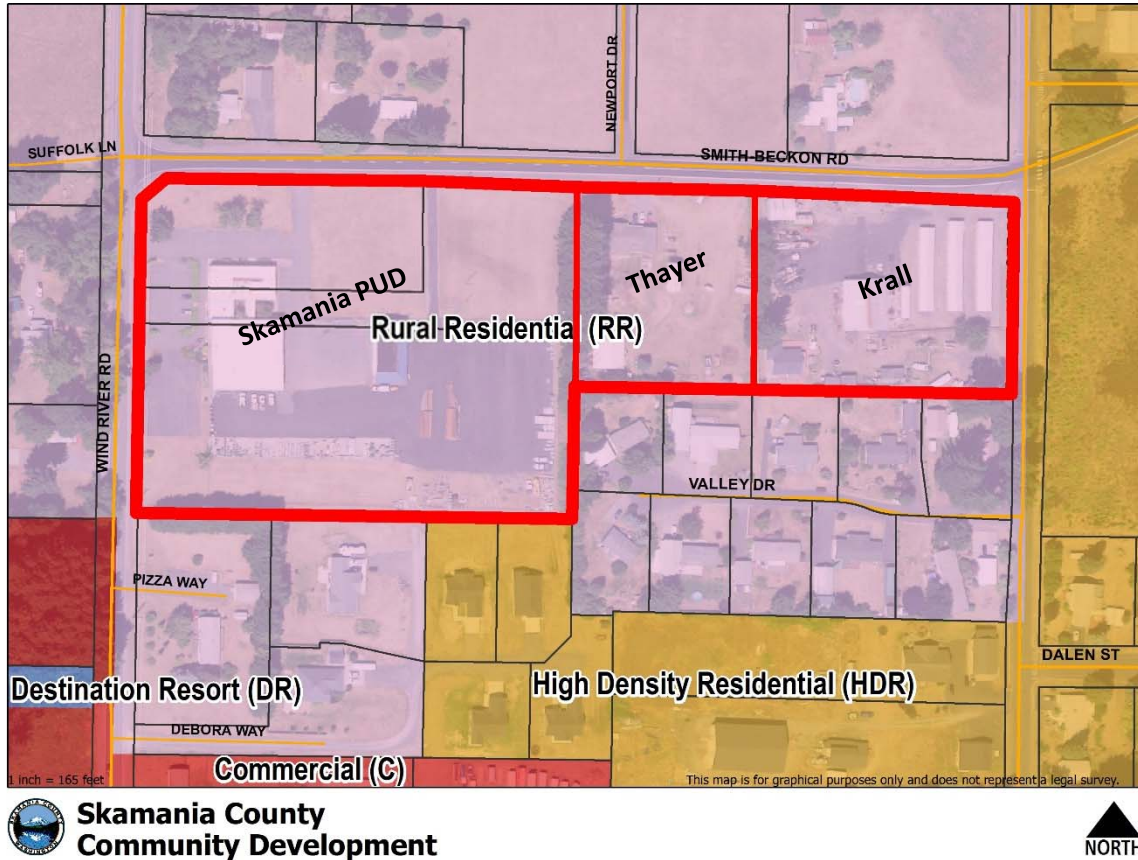

Figure 1. Map of subject properties.

Staff Recommendation

If the Board of County Commissioners is in support of the Planning Commission recommendation, then staff recommends that Resolution 2022-21 and Ordinance 2022-01 be placed on a future consent agenda for adoption by the Board.
