**DOH Program and Fiscal Contact Information** for all ConCon SOWs can be found on the [DOH Finance SharePoint](#) site. Questions related to this SOW, or any other finance-related inquiry, may be sent to [finance@doh.wa.gov](mailto:finance@doh.wa.gov).

FPHS staff from DOH and the Washington State Association of Local Public Health Officials (WSALPHO) will coordinate and communicate together to build and assure common systemwide approaches per FPHS Steering Committee direction and the FPHS framework intent.

### **Program Specific Requirements**

The Steering Committee is engaged in a long-term, multi-biennial, phased, building-block approach to full funding and implementation of FPHS statewide that includes:

- Full funding of FPHS with adequate, dedicated, stable funding that keeps pace with inflation and demand for services
- Full implementation of FPHS that includes system transformation and modernization to deliver services in the most equitable, effective, and efficient manner possible for the funds available

Foundational Public Health Services Definitions and related information can be found here: [www.doh.wa.gov/fphs](http://www.doh.wa.gov/fphs) or [FPHS | Powered by Box](#).

**Stable funding and an iterative decision-making process** – The FPHS Steering Committee is the decision making body for FPHS. The Steering Committee provides oversight including determination of goals, priorities, budget request, funding allocation and accountability metrics. The Steering Committee relies on FPHS Subject Matter Expert (SME) Workgroups and other FPHS workgroups to ensure a collaborative, systemwide, decision making process. The Steering Committee use an iterative approach to decision making. This means that additional tasks and/or funds may be added to a local health jurisdiction’s (LHJ) FPHS Statement of Work (SOW) as funding decisions are made.

**Annual Allocations** – The legislature appropriates FPHS funding on an annual basis and the FPHS Steering Committee allocates funds annually through the FPHS Concurrence Process for the State Fiscal Year (SFY): July - June. FPHS funds can be applied retroactively to expenditures within the SFY for which they were allocated even if the expenditure occurred before the Steering Committee made the allocation decision or the agency contract was signed.

SFYs are named for the year in which they end. The state biennium is named for the year in which it begins and ends.

- SFY22 (July 1, 2021 – June 30, 2022); half of annual FPHS allocation disbursed July 1, 2021 and January 1, 2022
- SFY23 (July 1, 2022 – June 30, 2023); half of annual FPHS allocation disbursed July 1, 2022 and January 1, 2023
- SFY 22 & 23 comprise the 2021 – 2023 Biennium (21-23)

The Legislature appropriates FPHS funding amounts for each fiscal year of the biennium. This means that funds must be spent within that fiscal year and cannot be carried forward. Any funds not spent by June 30<sup>th</sup> each year must be returned to the State Treasury. Funding allocations reset and begin again at the start of the next fiscal year (July 1).

The Consolidated Contract (ConCon) is based on the calendar year and renewed every 3 years. FPHS statements of work may include reference information such as allocations, fund disbursement schedules, deliverable due dates, etc. that fall outside of the current 3-year contract period if they are part of the same state fiscal year. The purpose for including this information in the ConCon is to provide a) historical information from the previous ConCon cycle; and/or b) prospective information about future ConCon cycle, if they are part of the same SFY.

**Disbursement of FPHS funds to LHJs** – Unlike other ConCon grants, FPHS bill-back to DOH is NOT required. Half of the annual FPHS funds allocated by the Steering Committee to each LHJ are disbursed, each July and January. The July payments to LHJs and access to FPHS allocation for all other parts of the governmental public health system occur upon completion of the FPHS Annual Assessment.

**Spending of FPHS funds** – The FPHS funds are for assuring FPHS services are available, and as reflected in the SOW. Each agency is responsible for deciding how to spend their funds within the parameters established by the FPHS Steering Committee and the SOW contract. Assurance includes providing the FPHS as part of your jurisdiction's program operations, contracting with another governmental public health system partner to provide the service, or receiving the service through a new service delivery model such as cross-jurisdictional sharing or regional staff.

**Deliverables** – FPHS funds are to be used to increase the availability of FPHS services statewide. The FPHS accountability process measures how funds are sent, along with changes in system capacity through the FPHS Annual Assessment, system performance indicators, and other data. Each part of the governmental public health system that receives FPHS funds must complete:

1. Routine reporting of spending and spending projections. Process and reporting template are provided by the FPHS Steering Committee via FPHS Support Staff.  
 Unspent or projected unspent funds may be reallocated by the Steering Committee to other FPHS activities in order to fully utilize funds within the state fiscal year timeframe to deliver services to Washington communities. Any FPHS funds unspent at the end of the state fiscal year (ending June 30) revert to the state treasury. Because LHJs receive funds up front, prospectively, any unspent funds and must be returned to DOH by end of July of each year for DOH to return to the Office of Financial Management.
2. FPHS Annual Assessment is due each July to report on the previous state fiscal year. Process and reporting template are provided by the FPHS Steering Committee via FPHS Support Staff. System results are published in the annual FPHS Investment Report available at [www.doh.wa.gov/fphs](http://www.doh.wa.gov/fphs).

There are two different BARS Revenue Codes for “state flexible funds” to be tracked separately and reported separately on your annual BARS report. These two BARS Revenue Codes and definitions from the State Auditor’s Office (SAO’s) are listed below along with a link to the BARS Manual. 336.04.25 is the new BARS Revenue Code to use for the Foundational Public Health Services (FPHS) funds included in this statement of work.

**336.04.24 – County Public Health Assistance**

Use this account for the state distribution authorized by the 2013 2ESSB 5034, section 710. The local health jurisdictions are required to provide reports regarding expenditures to the legislature from this revenue source.

**336.04.25 – Foundational Public Health Services**

Use this account for the funding designated for the local health jurisdictions to provide a set of core services that government is responsible for in all communities in the WA state. This set of core services provides the foundation to support the work of the broader public health system and community partners. At this time the funding from this account is for delivering ANY or all of the FPHS communicable disease services (listed above) and can also be used for the FPHS capabilities that support FPHS communicable disease services as defined in the most current version of FPHS Definitions.

**Activity Special Instructions:**

**1. FPHS funds to each LHJ**

These funds are allocated to each Local Health Jurisdiction to assure FPHS are available in their own jurisdiction. In coordination with the FPHS Steering Committee and Subject Matter Expert (SME) Workgroups, these funds may be used to provide any of the activities described in the most current version of FPHS definitions for foundational programs and foundational capabilities. Each LHJ is empowered to prioritize where and how to use these funds to maximize equitable, effective and efficient delivery of FPHS to every community in Washington.

Even if FPHS services are provided by another agency through a contract, new service delivery model, or centralized service delivery model (such as the State Public Health Lab), all agencies that receive FPHS funds are responsible for reporting progress on the availability and implementation within their jurisdiction using the FPHS Annual Assessment.

These funds are not intended for fee-based services such as selected environmental public health services, licensing of healthcare facilities, screening of newborn babies for congenital disorders, etc. As state funding for FPHS increases, other funds sources (local revenue, grants, federal block grants) should be directed to the implementation of additional important services and local/state priorities as determined by each agency/jurisdiction.

Use BARS expenditure codes from the list above that most closely align with expenditure made.

**Pandemic Response** – These FPHS funds are to be used as directed and allocated by the FPHS Steering Committee to deliver FPHS services. As the global COVID-19 pandemic and the public health response to it continues to wane, these FPHS funds can be braided with and used to supplement other short-term pandemic response funding as needed for FPHS activities during this period of performance through 6/30/23. Responding to pandemics, epidemics and public health emergencies are foundational services of the governmental public health system.

**2. Assessment funds to each LHJ – (FPHS definition G.2)**

These funds are allocated to each Local Health Jurisdiction to assure FPHS are available in their own jurisdiction - Support LHJ assessment capacity with flexible funds to meet locally identified needs. BARS expenditure codes: 562.10 or 11

**3. Assessment funds to each LHJ – CHA/CHIP (FPHS definitions G.3)**

These funds are allocated to each LHJ to assure FPHS are available in their own jurisdiction - Support any CHA/CHIP activity or service (e.g., data analysis, focus groups, report writing, process facilitation) and may be used to contract with other agencies for staff time or services. Use BARS expenditure codes: 562.11

**4. Lifecourse – Infrastructure & Workforce Capacity (FPHS definitions D, E, F)**

These funds are to each LHJ to assure FPHS are available in their own jurisdictions - Infrastructure and workforce investments to each LHJ to meet fundamental needs in three areas: Maternal/Child/Family Health; Access/Linkage with Medical, Oral and Behavioral Health Services; and Chronic Disease, Injury and Violence Prevention. Use BARS expenditure codes: 562.60 or 70 or 80.
