

Known Active Cases are the number of known cases reflecting the number of cases (confirmed and probable) currently in their isolation period.

Confirmed cases: Are those where individuals had a positive molecular test result for COVID-19.

Probable cases: Are those where individuals had a positive antigen test result for COVID-19, but no positive molecular test result.”

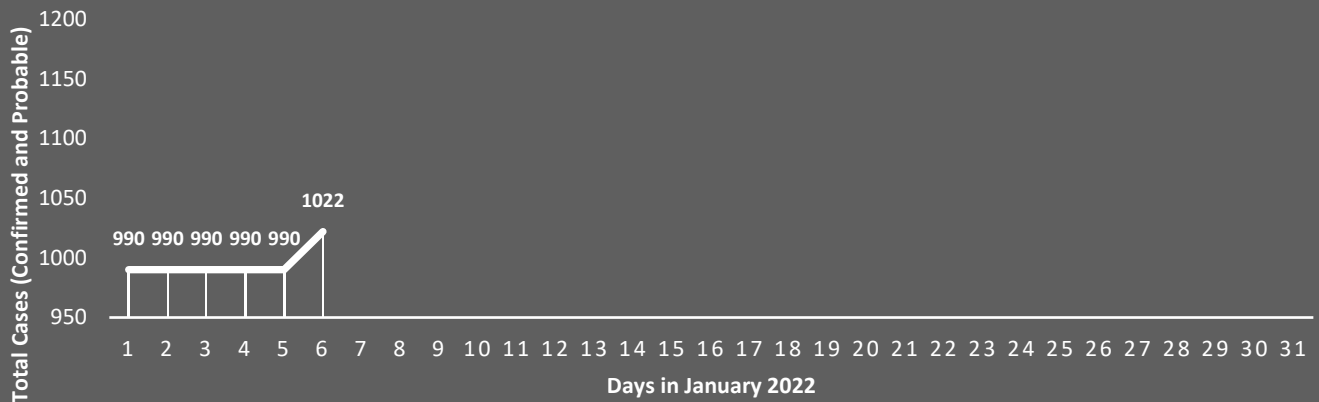

Skamania County Covid-19 Data

1/6/2022

Confirmed Cases*	Probable Cases*	Total Cases* (Confirmed + Probable)	Known Active Cases	Hospitalizations*	Deaths*	Total Tests* Performed at SCCH <i>(updated weekly)</i>
				*These are cumulative numbers		
914	108	1022	29	30	9	2611

When Probable cases are confirmed they will be removed from the Probable Case count and moved to the Confirmed Case count. Disclaimer *This data is based on current positive cases that Public Health is aware of. Any untested positive cases, unreported over the counter positive tests results or pending test results are not included in these numbers.
